

C 113a - Introduction To Computing

Challenge #5: Implementation of head tags

- By using the previous work I have, it seems that I've already finished this challenge early on.

```
1 <!DOCTYPE html>
2 <html>
3   <head>
4     <title> WALLSCRIPT | HOME </title>
5     <link rel="icon" type="image/x-icon" href="C:/Users/USER/Downloads/wallscriptbetaicon.png">
6   >
53   <style> ...
54   </style>
55 </head>
```
